

## AMIS AIT-V Contract Products Snapshot

This AIT-V Contract Products Snapshot is an abbreviated presentation of the product offerings by the three contractors providing their products and services. All CLINs are functionally equivalent and correspond directly to referenced PWS requirements. Fair Opportunity must be considered for delivery orders over \$3,500; See FAR 16.505. The pricing displayed is the published, pre-competed price for each item. Requesting a quote for a product order from all vendors often results in discount pricing. For complete, detailed contract and product information visit both the AMIS website and each product provider's website for items such as the Ordering Guide, Product specification sheets, Software/firmware drivers, and more. All published prices are subject to change and the current pricing is reflected within the contract for each vendor.
