

Portable Deployment Kit (PDK) III Ordering Information

NOTE:

The PDK III cannot be ordered through the normal supply system using assigned National Stock Numbers (NSN). To obtain the PDK III, units must utilize their local Contracting Support Office. The PDK III is a unit funded item with Item Standardization Code (ISC) of "L", for local purchase only. Units will procure the PDK III directly from the manufacturer through the local Contracting Support Office.

PDK III National Stock Number: 5895-01-690-7024

Funding: The PDK III is a unit-funded item that is not centrally-managed nor stocked, and must be procured directly from the manufacturer as a local purchase item (HQDA G-4 guidance).

Procurement Contracts: Units may utilize the PL AMIS RFID-V W52P1J-20-D-0034 contract. This contract is a de-centralized IDIQ contract, single source award to SAVI Corporation and can be accessed at the below link: [Automated Movement and Identification Systems \(AMIS\) - Contracts \(army.mil\)](#)

- PDK III with tablet and with printer (\$15,770.74) is listed at CLIN 0008AB
- PDK III orders provide a 5 year warranty based on normal usage.

Operational Usage and Restrictions: PDK III has a Microsoft Operating System combined with SAVI's software to enable reading and writing Active RFID tags.

PDK III is for use in austere environments and connect directly to the RF ITV Server. This connection is through the Iridium satellite network using an Iridium modem with SIM card. The PDK IIIs are shipped with the Iridium SIM card installed.
